

Blue Flame Vent-Free Gas Space Heater

BLUE FLAME HEATERS

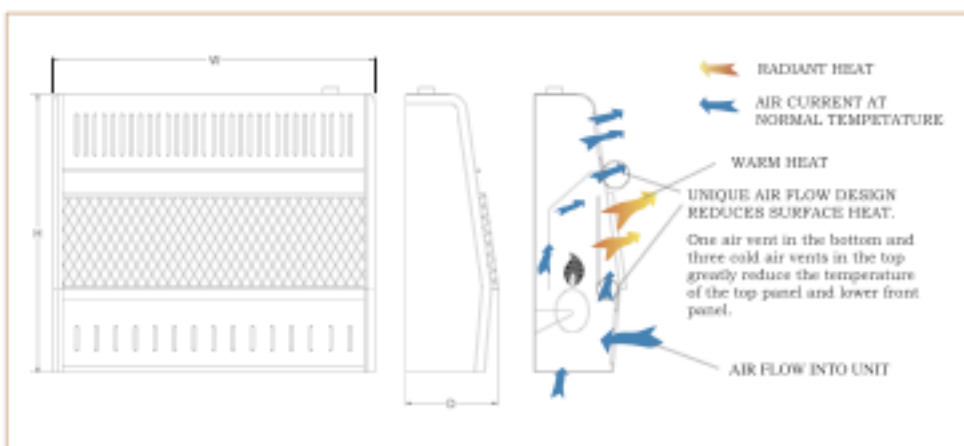

FAST, EFFICIENT HEAT. PRO-COM Blue Flame heaters work much like a central heating system, warming the air first and circulating it around the room, providing a more "gentle" heat than the infrared models. The azure blue flame glows through tempered, tinted glass for an intimate, warm effect.

Standard Features

- * Built-in Oxygen Depletion System (ODS) for maximum safety.
- * Diamond mesh front grill for added safety.
- * Models ranging from 6,000 to 30,000 Maximum BTU's.
- * 99.9% Efficient - All of the heat stays in the room!
- * Easy, economical installation with no vent or chimney required.
- * Fast, continuous heat for only pennies an hour.
- * No electricity required to light or operate-- ensures reliable use even during power failures.
- * Choose between two easy control options, either thermostat or manual, to adjust your heat output.
- * Available in Natural Gas and Propane Gas.
- * CSA design certified.
- * 3-year limited warranty.
